Deadline for manuscript submissions:
31 December 2024

Message from the Guest Editors

Dear Colleagues,

As Editors-in-Chief of Humans, we are delighted and excited to announce the call for papers for the upcoming Special Issue *Defining Humans*. This Special Issue of the journal *Humans* will consider high-quality articles from all subfields of Anthropology. The goal is to present cutting-edge research that will define the current scope of the discipline and possible paths forward.

All of the accepted papers in this Special Issue will be published free of charge in open access. You are welcome to send short proposals for submissions of feature papers to our Editorial Office (humans@mdpi.com) to discuss and/or to comment.

We believe that we can make a great contribution to the academic community and our discipline by presenting our own research together in a single volume. Submissions will first be evaluated by academic editors. Subsequently, selected papers will be thoroughly and rigorously peer-reviewed. The entire issue will be published in book format after the call for papers has closed and the collection has been thoughtfully vetted.

Message from the Editor-in-Chief

Humans is a multidisciplinary, anthropologically oriented online journal that publishes contributions focusing on the anthropological subfields (archaeology, ethnology/cultural anthropology, physical/biological anthropology, and anthropological linguistics), as well as those that integrate developments across subfields or implement multidisciplinary approaches. The journal is devoted to the rapid publication of cutting-edge developments in theory, method, technique, and data analysis. While original holistic research and contributions are given the highest priority, short communications and reviews are also encouraged. All contributions are rigorously peer-reviewed. Conference proceedings and Special Issues by guest editors that highlight outstanding research contributions on specific topics are welcome. The journal is designed to appeal to a diverse audience of research scientists and practitioners in both academia and industry.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20 days after submission; acceptance to publication is undertaken in 7.2 days (median values for papers published in this journal in the second half of 2023).

Recognition of Reviewers: APC discount vouchers, optional signed peer review, and reviewer names are published annually in the journal.
