

Innovative Approaches to Exposure and Health Risk Assessment of Hazardous Chemicals

Guest Editor:

Prof. Dr. Derk Brouwer

Occupational Health Division,
School of Public Health,
University of the Witwatersrand,
Johannesburg 2391, South Africa

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

This Special Issue aims to attract the most recent advances in multidisciplinary research connected to research in the fields of exposure science, occupational hygiene, and risk assessment in occupational settings. Research articles are invited on topics associated with exposure pathway analysis, far-field -near field and source-receptor exposure modeling, internal thresholds of toxicological concern, quantification of intake, working life exposome, and total worker exposure health.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
