Deadline for manuscript  
submissions:

**31 December 2024**

### Message from the Guest Editor

Dear Colleagues,

Over the last decade, infrared and multi-spectral medical thermography has undoubtedly exhibited breakthroughs in the medical field of clinical thermology.

The project seeks contributions on thermology health care applications and medical thermography (environmental sciences and engineering), public health, environmental health, occupational hygiene, health economic and global health research, mental health, digital health, women's health, health care sciences and services, health communication and informatics, toxicology, and public health, public health statistics and risk assessment, oral health, exercise and health, traumas, nursing, adolescents, skin health, disabilities, sport and health, aging, disease prevention, injury prevention, and rehabilitation.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
