**Dr. Dale Mantey**

Deadline for manuscript  
submissions:

**30 June 2025**

### Message from the Guest Editors

The complexities surrounding the use of electronic devices used for vaping and the triad of tobacco, nicotine, and cannabis use, particularly among youth and young adults under the age of 26, present a significant public health challenge. Effective regulation of electronic devices used for vaping, especially for young people, is crucial for public health. However, such regulations remain weak globally, and attempts to regulate are frequently thwarted by the tobacco industry and affiliated groups. To address this problem, we invite submissions for a Special Issue focusing on strategies to regulate electronic devices and vaping behaviors and protect youth and young adult health. We encourage submissions that explore various aspects of regulation, including but not limited to the following: (1) effectiveness of product prohibitions in reducing vaping behaviors, (2) impact of marketing restrictions on adolescent vaping behavior, (3) evaluation of age verification measures for online product sales, (4) health outcomes associated with vaping, and (5) the role of several actors, including the tobacco industry, in the regulation of electronic devices and vaping behaviors.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
