21031-210, Brazil

Message from the Guest Editors

This Special Issue welcomes original articles and systematic reviews that provide knowledge on the role of food consumption within the global syndemic framework. The target of this topic will be research involving food consumption, healthy and sustainable diets, malnutrition in all its forms, food insecurity, the food environment, undernutrition and overweight/obesity, climate change, socioeconomic factors and other related factors, as well as research on relevant interventions in the field.

Deadline for manuscript
submissions:

31 March 2025

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
