Message from the Guest Editor

Dear Colleagues,

The coronavirus disease 2019 (COVID-19) pandemic has overwhelmed the world since 2020 and will continue to have residual effects on professionals and students of Health Sciences around the world, affecting the practice of care in the world. Better understanding the public health, clinical, psychological, social, and infrastructural aspects of this pandemic will help us to plan for future crises and prevent risks, based on the scientific knowledge gained. For this Special Issue, we are looking for thoughtful and well-written manuscripts that address “Advances in Nursing Practice and Education” from current and future perspectives, emphasizing current and future implications for professionals. Systematic reviews, meta-analyses, retrospective and prospective risk assessments, as well as articles on quantitative and qualitative models from various fields, including epidemiology, public health, medicine, nursing, statistics, and psychology, are welcome.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
