Message from the Guest Editors

This Special Issue focuses on the social factors related to quality of life and well-being of the elderly. In this Special Issue, original research articles and reviews are welcomed. We also welcome qualitative or quantitative contributions based on social factors of older people's well-being and quality of life, and interventions to promote older people's quality of life and well-being in general. Research areas may include (but are not limited to) the following: social support, older adults, health, successful aging, quality of life and well-being, social factors, and determinants of health.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
