Baldingerstraße, 35043 Marburg,  
Germany

### Message from the Guest Editors

In this Special Issue, we are glad to provide our readers with novel insights into the topic of end-of-life care and nursing. Our aim is to shed light on this issue from the perspective of different healthcare settings and cultures, as well as different disease-specific challenges.

We are delighted to launch this Special Issue of the *International Journal of Environmental Research and Public Health* and invite all experts in the field—clinicians and researchers—around the world to submit their work for consideration. Manuscript formats can vary from literature reviews (systematic literature reviews and meta-analyses or narrative reviews) to original research. We particularly welcome multidisciplinary contributions from all fields of end-of-life care and studies with strong implications for practice.

Deadline for manuscript  
submissions:

**31 July 2025**

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
