Deadline for manuscript  
submissions:

**closed (31 August 2023)**

### Message from the Guest Editors

Dear Colleagues,

Assuming that digital media is not simply a communication tool, representing “real” relational and symbolic contexts in which individuals and groups have their social experiences, this Special Issue invites the submission of high-quality empirical papers, reviews, and meta-analyses to advance the understanding of the relationships between digital pro-social and anti-social contents and behaviors and individuals’ and community well-being and health, focusing on the contribution that social psychology can make in this sense.

We particularly welcome high-quality studies investigating the various digital environments (e.g., social networks, videogames, web-based applications in general, virtual or augmented reality, etc.), the various forms of pro-social and/or anti-social contents (e.g., digital discrimination, hate speech, etc.) and behaviors (e.g., anti-racist and condemning behaviors, pro-environmental attitudes, collective actions, cyberbullying, etc.), and their relationship with individuals’ and communities’ well-being and health.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
