Message from the Guest Editors

Dear Colleagues,

This Special Issue entitled "2nd Edition: New Strategies in Diagnosis, Treatment and Prevention for Women's Health" addresses the latest and most innovative procedures for diagnosis, treatment and prevention in women's health. Research in this field is evolving quickly. Technology, molecular biology and bioinformatics make it possible to increasingly personalize treatment for women.

Dr. Stefano Cianci

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
