Technology, Kačanskog 13, 11040
Belgrade, Serbia

Deadline for manuscript
submissions:

closed (30 April 2024)

Message from the Guest Editor

A sustainable food system is critical to enable a sustainable, diverse and wholesome lifestyle for global consumers and security in the supply of the food and nutritional needs of the expanding population in such a way that reduces the environmental impact of food production and consumption.

Thus, in this Special Issue, we welcome manuscripts across a broad range of topics, but we are particularly interested in original research manuscripts and/or reviews regarding the recent advancements in the production, processing, distribution, preparation and consumption of food, as well as the outputs of these activities, including socioeconomic and environmental outcomes.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
