

Relationship of Nervous System and Its Effectors in Health, Aging and Disease

Guest Editors:

Dr. Agnieszka Kujawska

Dr. Sławomir Kujawski

Dr. Joanna Słomko

Prof. Dr. Paweł Zalewski

Deadline for manuscript
submissions:

closed (1 October 2023)

Message from the Guest Editors

For this research topic, we aim to explore the current research of physiological mechanisms underlying the relationship between the brain and other organs using two approaches: examining its dynamics in response to aging and its applicability in a clinical setting. Since no single study can reveal all aspects related to this topic, our knowledge should be gradually developed using many different approaches based on high-quality scientific research.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
