Message from the Guest Editors

Few phenomena have had and continue to have such a significant impact on individual and societal well-being as the exploration of the concept of sexual health in its broadest sense. These advances have influenced many aspects of people's personal and social life, and have also had a significant impact on demographic, production, economic, and civil trends. Gender relations, of course, have also been strongly influenced by the acceptance of gender equality demands and sexual rights. The same, even if at different levels in different societies, could be said for sexual minorities.

This Special Issue seeks research papers on various aspects of sexual health and sexual rights; they could be a synthesis of the various initiatives and social transformations resulting from the expansion of the concept of sexual rights and sexual health, as well as the emergence of different approaches, for example, from historical, anthropological and/or sociological, psychological, medical, legal, religious and philosophical, and finally political and practical.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
