Health and Safety, Faculty of  
Public Health, University of  
Mahidol, Bangkok 10400,  
Thailand

### Message from the Guest Editors

Food insecurity and global markets for food commodities have resulted in the widespread use of chemical fertilizers and pesticides, which in turn impact ecosystems, water supplies, and community health. Agricultural workers and their families are on the front lines of exposures to these chemicals, as well as the ergonomic and safety risks present in agricultural operations. For this Special Issue, we invite the submission of papers addressing risks and solutions in agricultural health, especially those combining a high academic standard with a practical focus on providing solutions.

Deadline for manuscript  
submissions:

**closed (30 January 2022)**

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
