Deadline for manuscript  
submissions:

**closed (31 December 2023)**

### **Message from the Guest Editors**

We are editing a Special Issue on the "Impact of Air Pollution on Sports and Physical Activity" for the *International Journal of Environmental Research and Public Health*.

We kindly invite researchers from different academic disciplines to submit their studies and articles for publication in this Special Issue.

We are looking for studies that analyze pollution and air quality in indoor and outdoor environments such as fields, leisure areas, gyms, gymnasiums, stadiums, and urban spaces within cities where walking, running and active leisure are performed. Of interest also are the direct and indirect impacts of pollution on sports and physical activity practitioners, from children, youth, adults and the elderly in different contexts such as sports, school, leisure, clinics, and others.

The proposal is open to transversal, longitudinal and intervention studies that apply quantitative, qualitative or mixed methodologies. Systematic reviews, meta-analyses and proposals for new measurement instruments are also welcome.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
