Message from the Guest Editors

For this Special Issue of *Nutrients*, we are seeking papers on application of bioimpedance analysis (BIA) in the pediatric and adult population. We welcome the submission of original research articles, reviews, and meta-analyses investigating the possibility of using bioimpedance to analyze the body composition in different age groups.

Therefore, there is a need to analyse the possibilities of using BIA in various areas of human life.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
