New Advances in the Diagnosis and Treatment of Congenital Heart Disease

Guest Editors:

Dr. Marco Alfonso Perrone

Department of Cardiology and CardioLab, University of Rome Tor Vergata, 00133 Rome, Italy

Dr. Paolo Guccione

Department of Pediatric Cardiology and Cardiac Surgery, Bambino Gesù Children Hospital, 00146 Rome, Italy

Dr. Lorenzo Galletti

Chief Pediatric Cardiac Surgery Unit, Department of Cardiac Surgery, Cardiology and Heart and Lung Transplant, Bambino Gesù Children Hospital, Rome, Italy

Deadline for manuscript submissions:

closed (31 May 2023)

Message from the Guest Editors

Congenital heart disease is one of the most fascinating topics among cardiovascular diseases. With an incidence of about 1% of live births, congenital heart disease has been a subject of great clinical and scientific interest over the years. More recently, hybrid treatment (surgery and transcatheter) of the most complex heart diseases has shown great promise.

This Special Issue will provide updates on the diagnosis and treatment of congenital heart disease through surgical, clinical, interventional, imaging, and translational research innovations.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase,

GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
