Dr. Guy Hutton

Dr. Marcello Basani

Prof. Dr. Meera Mehta

Prof. Dr. Dinesh Mehta

Deadline for manuscript
submissions:

closed (22 March 2022)

Message from the Guest Editors

We are looking for papers that present innovative management solutions in both rural and urban contexts, discuss the role of new water and sanitation technologies and Information, Communication and Technologies (ICTs) in water and sanitation services monitoring and governance, and/or explores the enabling environment for scaling-up innovation in WASH services. The focus is on gaining a better understanding of the role and contribution of innovation to better management infrastructure, strategies and governance processes that can lead to improved and sustainable services, achieve universal coverage specifically paying special attention to low-income and vulnerable customers.

Authors are encouraged to share an abstract of the paper before its submission, the sooner the better, and send it to any of the guest editors of the Issue. They will then receive rapid feedback and, if applicable, suggestions for improvement.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
