Dr. Lilian van Tuyl

Dr. Anita Suijkerbuijk

Dr. Jiska Aardoom

Dr. Anke Versluis

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editors

Dear Colleagues,

Primary care organizations, such as general practices, pharmacists and physiotherapists, are continuously challenged to provide affordable, accessible and high-quality care.

This special issue of the International Journal of Environmental Research and Public Health (IJERPH) focuses on the current state of knowledge on the use of e-health technology in primary care and the perspectives and experiences of health care professionals and health care consumers with e-health technology. Original research papers, reviews, and case reports are welcome to this issue. Papers dealing with experiences gained during the COVID-19 pandemic are also welcome. Other manuscript types accepted include methodological papers, position papers, brief reports, and commentaries. We welcome manuscripts with different topics, including implementation, epidemiology, intervention studies, patient safety, and cost-effectiveness studies

Keywords: General practice; primary care; paramedic care; prevention; perspectives; experiences; e-health; innovation; COVID-19; implementation

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
