Message from the Guest Editors

This Special Issue focuses on innovative approaches for EMF exposure evaluations, filling the research gaps and obtaining reliable and realistic evaluation of the exposure levels for the general population and in everyday environments. Research papers or reviews can focus on (but are not limited to) innovative measurement techniques and protocols, computational methods, stochastic and deterministic dosimetry approaches, machine learning and integrated strategies, approaches for minimizing exposure, networks optimizations, etc.

Deadline for manuscript submissions:

closed (30 April 2023)

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
