Deadline for manuscript submissions: closed (30 September 2020)

#### Message from the Guest Editors

This Special Issue is focused on advances in and applications of spatial, mathematical, and bioinformatics tools for addressing ecological and space-time patterns of zoonotic diseases. These studies are informed and strengthened by data relating outbreak intensity to pathogensis and pathogen biology and how they shape host infection and immune response. Recent advances in spatial analysis are matched bv advances in bioinformatics. proteomics. and laboratory experimentation, allowing the One Health community to better relate disease outbreaks to specific environmental drivers and pathogen biology. For this Special Issue of IJERPH, we invite papers focused on the intersection of ecology and spatio-temporal patterns of zoonotic diseases. Interdisciplinary studies are critical to the field and highly encouraged.

#### Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation, Richard Dixon Research Center, Morgan State University, 1700 E. Cold Spring Lane, Baltimore, MD 21251, USA Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
