

## **Environmental Modeling and Analysis of Urban Greening and Air Pollutants**

Guest Editors:

**Dr. Lilit Sahakyan**

**Prof. Dr. Andranik S. Akopov**

**Dr. Chiara Baldacchini**

Deadline for manuscript  
submissions:

**closed (30 April 2021)**

### **Message from the Guest Editors**

This Special Issue will be devoted to the modeling of urban environment issues, placing a special emphasis on relationships between urban green spaces and atmospheric pollution.

Both environmental modeling and urban greening analysis enable a multidisciplinary and interdisciplinary approach for urban environment pollution issues, acting as a tool to be best effectively used in proper and effective urban environment management, selection of economically beneficial solutions, improvement of the potential of urban ecosystem services, and urban health.

By offering this Special Issue, we expect participation in a single scientific platform of broad specialists, including model developers, environmentalists, and urban policy makers.

We look forward to receiving your innovative work.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
