closed (1 February 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue will publish a thematic series of high-quality articles on key topics in health communication. Effective communication is essential to successful practice at every level of the health system. All stakeholders are involved: public and private institutions, healthcare professionals, industries, associations, and, above all, citizens. The spread of new information technologies, the adoption of health quality measurements and value-based rewards, as well as the requests of the patient community to promote shared decision-making offer new opportunities. If your paper is well prepared and approved for further publication by the academic editors, you will benefit from a publication discount.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
