Message from the Guest Editors

We welcome original research and reviews. Papers addressing these topics are invited for this Special Issue, especially those combining a high academic standard coupled with a practical focus on providing practical information and solutions.

- Analytical methods applied to the analysis of foods and environmental samples.
- Consumer motivations, perception and selection of food products, and resulting nutritional value of diet.
- Effects of consumer behavior on physical, mental, or social health outcomes.
- Consumer attitudes and food choices for the prevention and treatment of diet-related diseases.
- Nutritional recommendations and dietary guidelines as strategies in diet-related diseases prevention and treatment.
- Lifestyle and environmental factors influencing health benefits and risks.
- Current nutritional trends and related nutritional behaviors (plant-based diet, sustainable diet, paleo diet, ketogenic diet, zero-waste lifestyle) as factors influencing human health.
- Technologies applied in marketing strategies, food policy, and behavioral interventions for public health purposes.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
