Deadline for manuscript submissions:

**closed (31 March 2023)**

### Message from the Guest Editor

COVID-19, first reported in December 2019 in Wuhan, China, is a major global public health problem with high morbidity and mortality. Many patients have had their physical or mental health impaired as a result of the disease, along with, thus, their quality of life.

The health-related quality of life (HRQoL) is a useful tool for measuring the impact that this disease is having on the physical and mental aspects of individuals and evaluating the efficacy/effectiveness of treatments or health interventions.

The aim is to create a Special Issue of the journal IJERPH in 2021, covering both general and specific aspects of quality-of-life assessment during the COVID-19 pandemic.

The issue is open to all researchers or research groups that analyze HRQoL during COVID-19, including papers related to methodological aspects of the validation of general or specific HRQoL questionnaires, systematic reviews, or original articles that evaluate this problem both in the general population and in a specific disease.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
