Message from the Guest Editors

This Special Issue aims to bring together researchers across disciplines to present research that expands our understanding of cannabis as a medicine. Further, it will explore the barriers to accepting the potential benefits of both synthetic and phytocannabinoids as treatment options for patients within a sensible legislative model.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
