Deadline for manuscript  
submissions:

**closed (30 June 2022)**

### Message from the Guest Editor

This Special Issue of IJERPH focuses on Health Humanities, a new, emerging multidisciplinary research topic in Public Health. Health humanities is an interdisciplinary area of study that interrogates how the different components of the Humanities such as Linguistics, Literature, History, Philosophy, Music, Anthropology, and Sociology, among others, contribute to a better understanding of Public Health in the area of diagnosis, treatment, and care for members of the society. The main theme of this Special Issue, titled “*Health Humanities: Social Determinants of Access to Healthcare in Migrant and Minority Populations*”, is access to healthcare in less privileged societies. This collection will feature papers that discuss some of the social issues that affect access to healthcare by diaspora, indigenous, and minority populations around the world, in places such as Africa, Asia, South America, and the Global South, in general, but also in areas of the Global North, such as Europe and North America.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
