Message from the Guest Editors

We are organising a Special Issue on "Hyperglycaemia in Pregnancy: Detection, Management and Postnatal Care in Rural Communities" in the International Journal of Environmental Research and Public Health, a peer-reviewed journal that publishes articles and communications in the interdisciplinary area of environmental health sciences and public health. For detailed information on the journal, we refer you to <https://www.mdpi.com/journal/ijerph>.

This Special Issue will explore the on-the-ground realities of screening and managing hyperglycaemia in pregnancy and the impact on outcomes for women living in regional, rural and remote communities and their health services. The issue is open to any topic related to hyperglycaemia in pregnancy for women living in regional, rural and remote communities.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
