### Message from the Guest Editors

Papers addressing implicit bias mitigation in healthcare are invited for this Special Issue, including those presenting new findings as well as ones reviewing the field more broadly. Works to mitigate unconscious bias in healthcare professions are especially encouraged. Specific themes include but are not limited to the following:

- Fostering compassionate behavior in healthcare profession education
- Determining how healthcare professionals can mitigate their unconscious biases against patients and other healthcare professions
- Use of healthcare practitioners' reflective capacity and critical reflection to foster empathy and prevent burnout throughout their careers
- Work in interprofessional teams to provide relationship-centered teaching and care
- Examining whether humanities help us mitigate our implicit biases

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
