Polytechnic University, Hong
Kong

Deadline for manuscript
submissions:

closed (30 August 2023)

Message from the Guest Editors

Dear Colleagues,

This Special Issue bridges the gap between advanced science/technology and practice in the promotion of sport injury assessment, prevention and treatment. The application of the advanced science/technology in elite athletes will be highly desired.

Papers should focus on, but are not limited to, the following related topics:

- Cutting-edge equipment/technology used for competition, training, rehabilitation and coaching
- Sports equipment-related design and innovation (the ideation process, concept creation, embodiment refinement, design for mass manufacture and for sustainability)
- The development and validation of measurement, feedback, instrumentation, processes or software to enhance research activities within sports engineering and technology
- Sports biomechanics and the interaction with the environment, gear, and suit in the context of sports injury, sports medicine, and rehabilitation.
- Association of physical fitness, sports training, and athletic performance with sports injury.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
