Gynecology, Medical University of
Silesia, 41-703 Ruda Slaska,
Poland

Deadline for manuscript
submissions:

closed (31 July 2024)

Message from the Guest Editor

A Special Issue in the *International Journal of Environmental Research and Public Health* will be devoted to problems relating to Maternal and Child Health: Prenatal Diagnosis and Post-partum Care. I hope that the wide range of topics and areas of knowledge that this covers will allow me to collect very interesting reports in this field.

For many years, we have been observing the optimization of perinatal care that takes into account the mother, the fetus and the newborn. The upcoming Special Issue in the *International Journal of Environmental Research and Public Health* will be enhanced by research that pays attention to serious pathologies of pregnancy, such as gestational hypertension with preeclampsia, gestational diabetes, diagnostics of fetal defects and the management of emergencies in pregnancy and puerperium, as well as researchers sharing their own experiences in this field.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
