

## Health Disparities and Occupational Health in Military Service Members and Veterans

Guest Editors:

**Dr. Jud Janak**

**Dr. Jeffrey T. Howard**

**Dr. Alexis Raúl Santos**

**Dr. Ian J. Stewart**

**Dr. Avron Spiro**

Deadline for manuscript  
submissions:

**closed (30 November 2020)**

### Message from the Guest Editors

Military service is an occupation that confers both health-promoting and health-compromising factors over the life-course. Understanding the temporal association of these factors over the life-course is important to understanding the public health impact of military service and to guide future public health prevention strategies to reduce the risk of adverse health outcomes. This includes understanding any important racial/ethnic and sex health disparities in this diverse population.

This Special Issue seeks research papers on various aspects of Military Service Members' and Veterans' Health. We encourage submissions related to military occupational risks both during and after service, health systems, and health economics. We welcome original research papers using different study designs as well as systematic reviews and meta-analysis.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
