

Social Medicine and Healthcare Management

Guest Editor:

Dr. Ilaria Tocco Tussardi

Department of Diagnostics and
Public Health, University of
Verona, 37134 Verona, Italy

Deadline for manuscript
submissions:

31 March 2025

Message from the Guest Editor

In the historical context we are experiencing, in which the difference in the social determinants (economic, nutritional, occupational, educational and psychological) between different individuals and different communities are progressively accentuated, it is more crucial than ever to recognise their importance and, above all, translate the evidence into the best changes in healthcare management.

With this Special Issue, we would like to collect meaningful contributions which investigate social, genetic and environmental factors that influence human diseases and disabilities and explore which models of healthcare management are most effective in protecting the health of individuals and communities.

We look forward to receiving your contributions, both qualitative and quantitative, regarding emerging issues in social medicine and healthcare management.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
