submissions:

closed (30 April 2023)

Message from the Guest Editors

Dear Colleagues,

We are pleased to announce this collection titled “Editorial Board Members' Collection Series: Artificial Intelligence and Mathematical Modeling in the Public Health Agenda”. This issue will be a collection of papers, and researchers invited by the Editorial Board Members. The aim is to provide a venue for networking and communication between *IJERPH* and scholars in the field of AI, biology, mathematical modeling and health. All papers will be published with fully open access after peer review.

Prof. Dr. Wade Trappe

Prof. Dr. Eva K. Lee

Dr. Oliver Faust

Disparities Research and
Innovation, Richard N. Dixon
Research Center, Morgan State
University, Baltimore, MD 21251,
USA

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
