Message from the Guest Editor

Dear Colleagues,

Pharmaceutical care is a new, exciting, and challenging vision for pharmacy worldwide. In pharmaceutical care, the pharmacist cooperates with other professionals and the patient in designing, implementing, and monitoring the best therapeutic plan.

To transform and strongly enhance the pharmacist profession there is a great need to provide education and conduct research in the area of pharmaceutical care. Therefore, I am pleased to invite you to contribute to this Special Issue.

Potential topics include, but are not limited to:

- Pharmaceutical care as an effective tool to optimize pharmacotherapy;
- Medicines Use Review (MUR), medication therapy management (MTM);
- Adverse drug effects and the pharmacist's role in prevention;
- Pharmaceutical care as an integral part of the healthcare system;
- Deprescribing and polypharmacy management—case analysis;

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
