Message from the Guest Editors

Podiatry is the branch of health sciences concerned with the research, assessment, prevention, diagnosis and treatment of all foot and ankle conditions associated with the human body. This is done using established conservative or surgical podiatric methods.

This Special Issue seeks novel research papers related to podiatry and health, particularly any clinical subject areas such as 1) biomechanics and bioengineering, 2) dermatology, 3) diabetology and metabolic syndrome, 4) epidemiology, 5) foot and ankle surgery, 6) gerontology and geriatrics, 7) orthotics and prosthetics, 8) pediatrics, 9) prevention and promotion health, 10) physical therapy, 11) sports, and 12) radiology. We encourage the submission of interdisciplinary work and multi-national collaborative research. We also encourage the submission of original research of the policy, organization and delivery of services related to health systems that focus on issues related to foot and ankle health.

We welcome novel research papers using different study designs as well as systematic reviews and meta-analysis.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
