Message from the Guest Editor

Dear Colleagues,

Psychiatry and Psychopathology currently play a pivotal role in an era of great social and cultural change. Through a rigorous selection of papers, we aim to explore the new challenges that arise in light of advances in various areas, such as genetics, molecular medicine, diagnostics, and pharmacology, in order to integrate the vision of clinical medicine with the biological basis of disease.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.
