**Dr. Yasmín Ezzatvar**

Exercise Intervention for Health Research Group (EXINH-RG), Department of Physiotherapy, University of Valencia, 46010 Valencia, Spain

Deadline for manuscript submissions:  
**closed (28 March 2023)**

### **Message from the Guest Editors**

We welcome you to this Special Issue, entitled “The Junction between Physical- and Psychosocial Risk Factors in the Work Environment: Emphasizing the role of lifestyle and occupational settings”, which is currently considering submissions of high-quality manuscripts for publication in *IJERPH*.

The Special Issue seeks to further elucidate potent risk factors associated with the work environment and specific organizational settings, with an emphasis on relevant lifestyle factors influencing organizational health and well-being. While the field of work-related physical risk factors has taken precedence in the recent literature, this issue seeks to further highlight the importance and interrelatedness of psychosocial risk factors attributed to specific organizational settings differing in physical work demands, skill requirements, and demographics, prioritizing analyses of combined risk factors relevant to the local work environment.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
