2. Department of Health Disparities Research, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Deadline for manuscript submissions:

30 November 2024

Message from the Guest Editors

Cancer and its treatment bring various bio-psycho-social-spiritual and developmental challenges to cancer patients and their caregivers, contributing to a broad range of mental health concerns.

This Special Issue will consider the latest investigations focusing on the mental health of cancer patients and/or caregivers. Topics to be considered in this Special Issue include but are not limited to (1) mental health etiology, biology, and genetics; (2) issues related to screening, diagnosis, and care delivery addressing the mental health needs of patients, survivors, caregivers and/or dyads; (3) the interaction/connection between social determinants of health and mental health; (4) immediate- and long-term effects of mental health issues on patient and caregiver-reported outcomes; (5) observational, cohort, and/or intervention studies with emphasis on clinical trials; (6) palliative and/or end-of-life care; and (7) individual and dyadic processes (i.e., patient and caregiver) contributing to mental health needs and resulting intervention programs and/or clinical interventions.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
