### Message from the Guest Editors

Crises in organizations can have either devastating consequences or provide the opportunity for improving people, communities, and the organizations themselves. However, more often than not, crisis either internal or external to the organization can expose breaches in overall quality of life and have a dramatic impact on issues such as the psychological safety of individuals and the overall health and well-being of communities and organizations. As a result, stakeholders will react, experience, and be impacted in different ways based on how the organization and its leadership considers issues such as overall quality of life, well-being, and psychological safety. This Special Issue invites papers that explore the complex issues of ethics, social responsibility, and the importance of well-being for people and organizations—especially in times of crisis.

Deadline for manuscript  
submissions:

**closed (31 July 2022)**

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Paul B. Tchounwou**

RCMI Center for Urban Health

University, 1700 E. Cold Spring  
Lane, Baltimore, MD 21251, USA

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
