submissions:

closed (31 October 2023)

Message from the Guest Editors

The aim of this Special Issue is to highlight pioneering research that explores the understanding of and response to childhood obesity, including its related health consequences. This includes, but is not limited to, research on the trends, risk factors, consequences, and interventions to prevent or manage obesity; obesity policy and program evaluation; and using digital health, systems science, or other innovative methodologies to address childhood obesity. This Special Issue invites researchers of any disciplines who focus on childhood obesity research, including but not limited to medicine, public health, public policy, economics, social science, and urban planning, to submit their work.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
