Dr. Typhanye Vielka Dyer

Dr. Donté T. Boyd

Dr. Allysha C. Maragh-Bass

Deadline for manuscript
submissions:

31 May 2025

Message from the Guest Editors

Dear Colleagues,

Research that examines health disparities and addresses underlying structural inequities is complex and often requires multilevel and diverse methodologies. Populations which are marginalized and minoritized on the basis of factors such as race, age, gender identity, and/or sexual orientation experience disproportionate rates of STI/HIV, violence, substance use (alcohol and illicit drugs), and mental health disorders (e.g., anxiety, depression, and suicidality), as well as structural determinants of disparities (e.g., racism and intersectional structural discrimination). It is critical that we address how these synergistic epidemics (syndemics) co-occur and mutually reinforce each other, given the rise of syndemics in marginalized populations in the wake of the global COVID-19 pandemic.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
