University of Nottingham,  
Nottingham NG7 2HA, UK

Deadline for manuscript  
submissions:

**closed (10 May 2023)**

### Message from the Guest Editor

This Special Issue will consider the relationship between the COVID-19 pandemic and the physical and mental wellbeing of employees and trainees; experiences of particular occupational groups and sectors (including students in higher education as the future workforce); psychosocial risk factors; organisational interventions for workforce support; the engagement of line managers in workplace health initiatives, promoting healthy lifestyles at work; digital approaches to supporting employee health and wellbeing or facilitate pandemic-related shifts to remote working; and the prevention or management of chronic conditions at work and issues of equality, diversity, and inclusion in the context of COVID-19.

In particular, we welcome articles on the implementation and effectiveness of interventions to mitigate the impacts of the pandemic. This may include the experiences and outcomes of workplace SARS-CoV-2 testing and vaccination programmes, and supportive interventions to mitigate the impacts of COVID-19 on the mental and physical health of the current and future workforce.

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
