Message from the Guest Editors

Emotions represent one of the defining characteristics of human beings and have a pervasive presence in our lives, playing crucial roles in shaping the social and cultural contexts in which we live and with which we interact, our cognitive patterns, our interpersonal relationships, and the relevant psychosocial outcomes. The current Special Issue is devoted to the examination of how distinctive emotional experiences, their expression or regulation, and their interaction with social or cultural aspects determine different psychosocial variables across a wide array of social settings, such as organizations or close relationships. Empirical investigations on the antecedents of emotional experience are also of interest to this Special Issue. Within this Special Issue, we welcome unpublished and high-quality empirical and review papers that can help advance our understanding of the presence and significance of interpersonal dynamics between emotional phenomena in various social settings.

Deadline for manuscript submissions:

closed (31 December 2023)

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
