Insights into Paediatric Foot Conditions and Foot Health Education

Guest Editors:

Dr. Angela Evans

Discipline of Podiatry, School of Allied Health, Human Services and Sport, La Trobe University, Plenty Road, Bundoora, Melbourne, VIC 3086, Australia

Prof. Dr. Gabriel Gijón-Noguerón

Department Nursing and Podiatry, Universidad de Malaga, Malaga, 29100 Spain

Prof. Dr. Alfonso Martínez-Nova

Nursing Department, University Center of Plasencia, University of Extremadura, 10600 Plasencia, Spain

Deadline for manuscript submissions:
closed (31 July 2023)

Message from the Guest Editors

We are delighted to be the Guest Editors of this Special Issue of the *International Journal of Environmental Research and Public Health (IJERPH)*. The overarching title for this issue is “Insights into Paediatric Foot Conditions and Foot Health Education”.

Conditions pertinent to sports and physical activity, children with predisposition to foot and lower limb pain, children with particular genetic related foot types, and conditions which delay or disrupt motor development will be a pertinent inclusion for this Special Issue.

Given that ‘paediatric’ encompasses children from birth to teens, age-related conditions and clinical presentations may also be discrete. Paediatric foot posture and method of assessment have been a recurring topic in the literature yet in isolation may have limited application and require clear parent and child education.

We will accept manuscripts from different disciplines, both original research and reviews. Papers dealing with new approaches to paediatric foot and interventions studies are also welcome. Other manuscript types accepted include methodological papers, brief reports, and commentaries.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
