Deadline for manuscript  
submissions:

**closed (31 October 2023)**

### **Message from the Guest Editor**

Dear Colleagues,

Cervical cancer is the fourth most prevalent cancer in women and is the leading cause of gynecologic cancer death worldwide.

The World Health Organization aims to eliminate cervical cancer using screening program and vaccination strategies against human papilloma virus (HPV) infection.

Offering the best possible care, in terms of innovation, to women diagnosed with invasive cancer is a challenging objective for improving treatment quality.

This Special Issue is expected to provide the most updated therapeutic-related advances and possible future directions in cervical cancer.

Dr. Andrea Giannini

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Public Health, Environmental and Occupational Health)
