Deadline for manuscript
submissions:

closed (30 April 2023)

Message from the Guest Editor

We are currently organizing a Special Issue entitled "Advances in Obstetrics and Neonatology" in the International Journal of Environmental Research and Public Health. For detailed information on the journal, please visit <https://www.mdpi.com/journal/ijerph>.

Obstetrics is a very dynamic field of medicine, which cannot exist without working closely with neonatology. Researchers and practitioners in these fields are searching for advances in management, including diagnosis, prevention and treatment. Developing strategies for reducing the risk factors of adverse pregnancy outcomes and acute and long-term complications, as well as understanding the cost of possible future management is crucial. This Special Issue is open to submissions concerning the two aforementioned medical specializations, with a focus on recent and novel topics. The keywords listed below provide an outline of some of the possible areas of interest.

pregnancy; pregnancy complications; cost of management; neonatology; treatment; prevention; adverse pregnancy outcomes; epidemiology; infections; risk factors; acute complications; long-term complications; fetus; neonate

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
