Deadline for manuscript
submissions:

closed (31 January 2023)

Message from the Guest Editors

The *International Journal of Environmental Research and Public Health* established the Section “Occupational Safety and Health” in 2017. To celebrate the fifth anniversary of this Section, a Special Issue titled “5th Anniversary of Occupational Safety and Health Section” is being planned. In recent years, significant changes have occurred in the world of work, and the coronavirus (COVID-19) pandemic has accelerated these beyond anything we could have imagined.

In this Special Issue, we welcome original and review articles that examine challenges raised by these evolving occupational scenarios and innovative approaches to the evaluation of hazards and the exposures in workplaces engaged in innovative activities, both through environmental and biological monitoring, needs and frameworks for a suitable occupational risk assessment, management and governance, and occupational health and safety approaches to promote workforce wellbeing.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
