Internal Medicine, University of
Warmia and Mazury in Olsztyn,
Żołnierska Str. 18, 10-561 Olsztyn,
Poland

Deadline for manuscript
submissions:

closed (3 April 2023)

Message from the Guest Editor

Public health is developing fast, and new data are emerging in huge amounts. This might enable the right risk assessment, diagnosis, prevention, and therapy specifically tailored to the unique characteristics of the individual, thus enhancing the quality of life as well as public health. Therefore, the aim of this Special Issue is to present recent developments in public health in cardiology.

We invite authors to submit original clinical studies, reviews, meta-analyses, as well as case reports focused on the individualization of the prevention, diagnosis, and treatment of heart disease. We are soliciting not only genetic studies, but all papers on the broadly understood cardiology, including papers on novel drugs, medical devices, or approaches dedicated to special subsets of patients.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
