

Environmental Chemical Mixture at Low Concentration and Children's Health

Guest Editors:

Prof. Dr. Hyunok Choi

Departments of Environmental Health Sciences, Epidemiology, and Biostatistics, University at Albany, School of Public Health, USA

Dr. Birgit Claus Henn

School of Public Health, Boston University Boston, MA, USA

Deadline for manuscript submissions:

closed (31 October 2017)

Message from the Guest Editors

Additional sources of uncertainty regarding human health risks due to the exposure to mixtures stem from the lack of data for personal exposure/internal dose, temporal persistence of exposure, and a host's underlying susceptibility (e.g., age, gender, genetic predisposition). Therefore, the goal of the present Special Issue is to provide a venue for presenting both experimental and human exposure, as well as health outcome data. In particular, quantification of exposure to complex mixtures, based on the use of biomarkers, is particularly encouraged. In addition, joint exposure and the associated effects of exposure concentrations and/or doses are sought.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
